TO WHOM SO EVER IT MAY CONCERN

The Planning and Mapping activity using latest GIS Technology with Innovative approach under NUHM by Madurai Corporation has been recognized as the "Best Practice" at the All India Level during the 5th National Summit of National Health Mission on " Good & Replicable practices and Innovation in Public Healthcare Systems " during 2018-19.

Earlier, the Corporation of Madurai has assigned the work to "M/s Infomaps" for doing web based multilayered GIS application regarding capturing of vulnerable locations including mapping and as result of successful completion of the work, the same was recommended for screening in the National summit.

The Contribution by the Agency "M/s Infomaps" - Sri Mangal Kamatchiamman Business Corporation, Chennai in creating a Web based multilayered GIS application with Analytical Tools for Troubleshooting live data capturing by Mobile Application and capturing of 20,000 P vulnerable locations in addition to mapping of vulnerable pockets in professional manner for this assignment is highly Commendable.

This Letter of Appreciation is issued in recognition of professional service rendered by them by scaling up the scope of work keeping futuristic requirements in mind with State of Art Technology.

We wish them Good luck.
