CERTIFICATE OF APPRECIATION

This is to formally acknowledge the highly professional and dedicated services provided by Infomaps in supporting the district administration's IT initiatives. Their contributions have been pivotal in developing comprehensive solutions, including a WebGIS application and a mobile GIS application for field inputs and validation.

Infomaps was entrusted with the following responsibilities:

1. Developing a website to promote tourism.
2. Creating a WebGIS application to monitor preparedness and the election process, incorporating QR codes for 1,374 polling booths along with an SOS system for emergency situation.
3. Implementing a QR-based public grievance registration module within a WebGIS application, along with an official follow-up module for 700+ ration shops.

Infomaps was involved in all aspects of system design, application development, training of officials, and server maintenance. Their sincere efforts have significantly contributed to the success of all the projects entrusted to them.

We extend our best wishes to Infomaps for a bright and successful future.
