CERTIFICATE OF APPRECIATION

This is to certify that **M/s. INFOMAPS – Sri Mangadu Kamatchiamman Business Corporation** is recognized and sincerely appreciated for its exemplary professional services rendered in the **design, development, and deployment of the Open-Source WebGIS-based Monitoring Dashboard** for the Tamil Nadu Biodiversity Conservation and Greening Project for Climate Change Response (TBGPCCR).

GIS-Based Web Application – TBGPCCR Monitoring Dashboard

Development and deployment of a scalable, open-source WebGIS platform integrating spatial and non-spatial datasets for real-time monitoring of forestry, conservation, livelihood, and infrastructure-related activities. The dashboard enables transparent tracking of financial and physical target achievements across the Project Management Unit (PMU), Circle, Divisional Management Unit (DMU), and District levels, hosted on a secure cloud environment with role-based access, dynamic reporting, and geo-referenced field evidence — strengthening governance and data-driven decision-making.

Mobile Application Support

Appreciation for Infomaps' supporting contribution towards the associated mobile application component, aiding field-level data capture and synchronisation with the monitoring dashboard.

Commitment to Digital Governance

Infomaps has demonstrated outstanding professionalism, technical expertise, and timely execution throughout all stages of project development. The dedication and innovation of the Infomaps team have been instrumental in advancing TBGPCCR's digital transformation journey, fostering efficient governance and improved environmental stewardship.

The Tamil Nadu Forest Department, Project Management Unit, TBGPCCR commends Infomaps for its valuable contribution and continued support in strengthening technology-driven environmental governance.
